
WINDOM POLICE
DEPARTMENT
ANNUAL REPORT

2021

MESSAGE FROM THE CHIEF OF POLICE

Scott Peterson

Dear Mayor and City Council Members:

2021 was a good year for the Windom Police Department. A partnership with Windom Area Health was started which allowed us to hire an additional officer. Our staff also began using body cameras and we maintained our partnership with Southwest Coop/ELC-Windom, resulting in some notoriety from the League of Minnesota Cities.

The City of Windom and Windom Area Health agreed to a partnership to share the costs of an additional police officer position. As part of this agreement, the Windom Police Department conducts foot patrols of the campus at various hours of the day. We also respond to crisis situations involving out of control patients and maintain a presence until the situation is resolved. Officer Jacob Samdal began his duties with us in July. He has been an excellent addition to our staff. We look forward to working with Windom Area Health in 2022. This past year, our staff also began using body cameras. These cameras work in conjunction with our in-car cameras and have provided much evidentiary value in criminal cases. The cameras also protect our officers against false complaints. This was a solid investment for our agency. We thank the Windom City Council for providing the funding to make it a reality.

We also maintained our partnership with the Southwest Coop/ALC. We provide daily foot patrols to the facility to deter crime and develop relationships with students and staff. By working with the staff of the school, we have lowered the number of calls to the building and reduced criminal cases. The League of Minnesota Cities wrote an article about our partnership. We appreciated the recognition.

I would like to thank the Mayor and City Council for their continued support. I would also like to recognize School Resource Officer Dana Wallace and Records Clerk Deb Nesseth for their work in creating this report.

SCOTT PETERSON
Chief of Police

MISSION STATEMENT

The mission of the Windom Police Department is to provide quality police service to our community by promoting meaningful police/citizen interaction and community partnerships.

- We place an emphasis on public education, problem solving and actively responding to community concerns.
- We commit to the values of integrity, impartiality, and service in the performance of our duties.

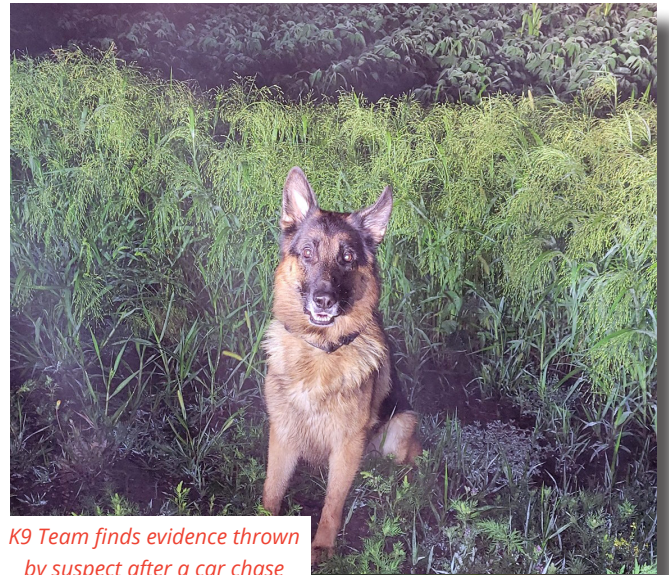

OFFICER REPORTS

K9 OFFICER LOUIS NORELL

This last year, the Windom K9 Unit was requested to assist the Yellow Medicine Co area Law Enforcement. They had a vehicle pursuit that ended in a bean field. While fleeing through the field, the driver was seen throwing something from the vehicle.

K9 Bruno was deployed into the field that was over waist high, to search for the discarded evidence. After following the vehicle tracks for several hundred yards and searching about 30 minutes, a knife was successfully located just off the vehicle's path.

We were happy to assist our Law Enforcement partners to the north and help them bring their scene investigation to an end. K9 Bruno showed his dedication and determination in locating this "needle in a bean field", that we otherwise wouldn't have been able to find.

K9 Team finds evidence thrown by suspect after a car chase

ASSISTANT CHIEF CORY HILLESHEIM

The year 2021 was a busy one when it comes to new equipment for the Police Department, most notably, were the Body worn cameras. The process started in the year end of 2020 in presenting to the City Council and ultimately granting the funds to purchase the system for a capital project. The Police Department chose WatchGuard as the system for the body worn cameras, which is the system that already is in use in the squad cars. With this system, the Officer can activate the body worn camera either in the squad car or the camera itself. Once the incident is complete, all cameras, the squad car camera and the body worn camera all sync together, making the process in downloading onto our server stream line.

The Police Department has viewed body worn cameras as an asset in writing reports and during the court process.

Cameras**

OFFICER DEVIN KOPPERUD

With the changing times in the world of law enforcement the Windom Police Department upgraded to new Tasers in 2021. The new Taser 7's is shown to be more effective with baggy or loose clothing in comparison to the older models. The batteries are also rechargeable and perform data transfers while on the charger. This data transfer pushes through updates and dumps information into a log, this log shows when and how long the unit was armed, if the unit was sparked or if a cartridge was deployed. This used to be done manually and was quite time consuming.

With the new software technology, the new Tasers are now equipped with dual lasers which give Officers better accuracy and confidence where the probes will hit the suspect.

The 7 also is loaded with two cartridges vs the old tasers only having one, which eliminates reloading after deployment. There were also advancements in the cartridges themselves, they now offer a close-range cartridge that provides greater spread at short distances and a long range which makes longer deployments more feasible. This provides better Neuromuscular Incapacitation or NMI giving the desired lock up affect.

Along with the new Tasers, a Taser suit was purchased, providing the Windom Police Department the ability to train with an actor. This allows Officers work on verbal de-escalation techniques as well as deployment if needed. These training opportunities make it more realistic and provides a level of stress, as would a real scenario.

In December 2021, about 10 members of the community worked with MILO range instructor, Ryan Hillesheim, to learn about Use of Force decisions officers make in the field.

INTRODUCING OUR NEW OFFICER

OFFICER JACOB SAMDAL

I want to start off by thanking my fellow Officer's for helping me through my first year of working for the Windom Police Department. They have all been a tremendous amount of help when I have questions.

In May of 2021 I graduated school from Minnesota West in Worthington. At the end of May, I started my first day as a Police Officer for the City of Windom. I have lived in Windom for about 22 years, so starting out my career here was great because I already knew a lot of people in town and knew the geography well.

I went through Field Training with Officer Kopperud and then finished off my training in a car on my own but with another Officer on duty with me to help when I needed. About two days off FTO I was enjoying making traffic stops with a State Trooper. He showed me a great spot to sit on the edge of town and we took turns stopping cars. After one stop, we went back to the median where I had a little fender bender. I was glad to hear I was not the only one that damaged a squad car in their career.

The rest of my time here has gone very well. I was able to arrest three impaired drivers, perform CPR, and even found a couple grams of meth on a traffic stop.

One thing I have enjoyed about working for the Windom Police Department has been the integration of Body Worn Cameras. Throughout my skills training at Minnesota West, we had the opportunity to use body cameras for our test-out scenarios. I came into the department at the beginning of receiving these devices. They have helped me a lot when writing my report so I can go back and identify people I may not know. For instance, I had a man give me a false name on a traffic stop. Something did not feel right about the information he gave me, but I had to go to an emergency call. When I was speaking with a Deputy about the incident, he informed me of a guy with a similar name. With help from the Deputy, a jail mugshot, and the body camera I was able to identify the suspect by his real name and forward the case on for charges.

Lastly, I would like to thank the Windom Area Hospital for contributing to the budget of the Police Department. Due to their contributions, I was hired as a full-time Officer one month into my career. I have enjoyed meeting new people and stretching my legs during walkthroughs at the hospital. I am excited to see what 2022 has in store for my career.

INVESTIGATOR REPORT

INVESTIGATOR DONNA MARCY

2021 has been another busy year for Investigations. I was involved directly or assisted in 220 cases.

One of the most notable investigations involved the death of 40-year-old Juan Morales-Rivera at the Phat Pheasant Pub on August 26. A 57-year-old male was arrested and charged in connection with Juan's death. This case is still moving through the court system, and is considered "open" or "under investigation" as information continues to come in. Minnesota Bureau of Criminal Apprehension (BCA) was contacted regarding this case and have been a valuable partner to us.

Unfortunately, sex crimes took up a lot of my time in the first half of 2021. I'd like to first talk about sex crimes against children. How do we handle these cases?

Generally, we partner up with Des Moines Valley Health and Human Services.

Appointments are set up for the children to be forensically interviewed at Child's Voice in Sioux Falls. Law Enforcement and Social Workers connected to the case can watch this interview through a TV system in a different room. Child's Voice also provides medical exams and follow-up appointments for the children. Child's Voice and DVHHS are amazing to work with and an invaluable resource for Windom PD.

Des Moines Valley
Health and Human Services
SERVING COTTONWOOD & JACKSON MN COUNTIES

In April, I was notified by BCA and asked to take over an ICAC (Internet Crimes Against Children) case for them. A 55-year-old Windom male has been charged with 5 counts of possession of pornographic work involving minors under the age of 13.

Social Media – several crimes occur over social media to include: scams, child sexual exploitation, solicitation for sex, etc. Often, after much investigation following the "paper trail," the suspects are found outside of the United States. This is the case in January when 2 young girls were contacted by a male that was requesting nude images and masturbating on camera to the girls. The male suspect was tracked to Australia and the authorities in Australia were notified of his actions.

INVESTIGATOR

MAJOR CASE HIGHLIGHTS

In January, a 28 year old male was charged with 1st degree criminal sexual conduct (suspect sexually penetrated another person causing personal injury, specifically severe mental anguish and used force or coercion to accomplish the penetration) and 3rd degree criminal sexual conduct. The victim was 24 years old. A jury trial is scheduled this year for this case.

In April, a 37 old male was charged with burglary, 1st degree and 3rd degree criminal sexual conduct (engaged in sexual penetration with victim while he knew or had reason to know that victim was mentally impaired, mentally incapacitated, or physically helpless and caused personal injury to victim 1). There is a warrant for the arrest of this suspect.

In April, a 38 year old male was charged with 2nd degree criminal sexual conduct (suspect engaged in sexual contact with a victim that was between 8-9 years old. A jury trial is scheduled this year for this case.

In March, a 44 year old male was charged with 2 counts of 1st degree criminal sexual conduct (suspect engaged in sexual penetration of a person under the age of 13. The sexual abuse involved multiple acts committed over an extended periods of time. The victim was 9 years old at the time of this report. The suspect has been convicted in court and is serving 144 months in the St. Cloud Correctional Facility aka prison.

Later in the month, the same person was charged with 2 counts of 1st degree criminal sexual conduct and 1 count of distribute via electronic communication material that relates/describes sexual conduct to a child. The victim was 12 years old at the time of this report. These charges were dismissed as he is sentenced with his previous crime.

In October, a 60 year old male was charged with 1st degree criminal sexual conduct (suspect engaged in sexual penetration with another person causing personal injury and the suspect used force or coercion to accomplish the penetration). The victim was 52 years old. I have not received court notice on this case at this time.

In March, Windom was hit by suspects in a multi-jurisdictional counterfeiting ring. Federal Prosecution of the suspects was declined and sent back to each respective agency for charges. Some of the agencies involved in this counterfeiting include: Hudson Wisconsin, Spirit Lake Iowa, Edina, Elk River, Eagan, Brooklyn Center, Maple Grove, Savage, Owatonna, St. Cloud, Alexandria, Waseca and Big Lake. In Windom, a 28-year-old female was charged.

PATROL

PARTNERSHIPS

This past year, the Windom Police Department and Windom Area Health began sharing the costs of a new police officer position.

As part of the agreement, our department provides daily foot patrols of the campus and responds to crisis situations involving patients.

This partnership has benefited the Windom Police Department by having another officer that is able to patrol our community and respond to calls. We look forward to our continued partnership with Windom Area Health.

The Windom Police Department continued its partnership in 2021 with the Southwest Co-Op in providing foot patrols for the ELC-Windom

Officers spend approximately 30 minutes per day at the school. As part of this process, we can build relationships with students and staff. The patrols have resulted in a diminished amount of calls to the school.

The City of Windom is reimbursed by the school for the time spent there. We hope to continue this partnership in the future.

RECORDS REPORTS

Records Management in 2021 didn't see as many changes as in the past. The Department, on the other hand, saw significant changes with their duties of "Directed Patrol" at the Windom Area Health, added as of July 1st, which will show increases in our daily Calls for Service numbers, and the report will reflect this. Another department change was the use of "Body Worn Cameras" by our officers.

The highlights for myself in records management were less noteworthy in comparison to another significant change in my workday, with the retiring of Jail Administrator Kristi Sell. Retired Jail Administrator Kristi Sell was a very dedicated employee with Cottonwood County throughout her career. She was a hard-working Dispatcher/ Jailer/ Jail Administrator like no other. Her strong work ethic and high standards had garnered respect and support from her co-workers. My days are again different at the office but having the privilege of working with such a fine person and friend, Jail Administrator Kristi Sell, was an honor for me. Thank you, Kristi, for all your hard work and dedication with Cottonwood County for more than 29 years. I wish Kristi the very best and wish her well in her retirement and what her future holds for her and her family.

Sincerely,

Debra Neseth, Legal Secretary
Windom Police Department
