

§ 152.003 ESTABLISHMENT OF ZONING DISTRICTS AND MAP.

(A) *Establishment of districts.* For the purpose of this chapter, the city is hereby divided into nine zoning districts and four special overlay districts, all of which are described in this chapter. These prescribed district regulations for land use and building and development standards shall be enforced uniformly within each district. The purpose of the district, permitted uses and yard and lot requirements are listed for each general land use district. Any use not permitted by right or located in a city utility easement shall require a conditional use permit.

(1) *Residential districts.* Districts designated for residential use, R-1, R-2 and R-3, are limited to uses normally associated with residential neighborhoods. The uses include schools, places of assembly, churches and parks. However, under the provisions of PUD (planned unit development), planned residential projects are permitted, under conditional use permit, which may include limited business facilities integrated into neighborhood design:

- (a) R-1, Single-Family Residential District;
- (b) R-2, Urban Residential District; and
- (c) R-3, Multi-Family Residential District.

(2) *Agricultural-Open Space District.* This district, A-O, will allow suitable areas of the city to be retained and utilized for low density residential, open space and/or agricultural uses: A-O, Agricultural-Open Space District.

(3) *Commercial districts.* Districts designed for commercial use B-1, B-2 and B-3 are limited to business activities and certain residential uses. Establishment of compact commercial districts provides for more efficient extension of city utilities and services. Most industrial uses are separated from other uses in order to maximize access and reduce hazards typically associated with industrial uses. However, research industrial uses and light industrial uses are permitted if they are of a nature that hazards are not present and they meet specific requirements set forth in this chapter:

- (a) B-1, Neighborhood Business District;

(b) B-2, Highway Business District; and

(c) B-3, Central Business District.

(4) *Industrial districts.* The districts designated for industry, I-1 and I-2, provide suitable space for future industrial development performance standards, parking specifications and yard regulations are set forth in the chapter in order to ensure safe industrial development that is compatible with adjacent uses:

(a) I-1, Light Industrial District; and

(b) I-2, Heavy Industrial District.

(5) *Special districts.* The purpose of these districts, FP, W and S, are to promote public health, safety and general welfare. The PUD district is to provide for the integration and coordination of land parcels as well as the combination of varying types of residential, commercial and industrial uses:

(a) FP, Floodplain District;

(b) W, Wetlands Systems District;

(c) S, Shoreland District; and

(d) PUD, Planned Unit Development District.

(B) *Zoning map.* The location and boundaries of the districts established by this chapter are hereby set forth in the zoning map entitled “Zoning Map of Windom”. The map on file with the Zoning Administrator, and hereinafter referred to as the “zoning map”, which map and all of the notations, references and other information shown thereon shall have the same force and effect as if fully set forth herein and thereby made a part of this chapter by reference.

(C) *Annexations.* No annexation petition shall be considered unless and until a hearing has also been petitioned for placing the annexed territory in a zoning district or districts.
(Ord. 125, 2nd Series, passed 12-15-2003)

§ 152.004 DISTRICT USE REGULATION.

Unless otherwise allowed by the provisions of this chapter, it is unlawful to use or permit the use of any building or premises for any purpose other than as stated herein. The use is further subject to all of the terms, limitations and other provisions of this chapter having general or special applications to various uses or classes of uses. No building permit shall be issued for any purpose inconsistent with land uses permitted in the affected district, or inconsistent with a variance or conditional use permit duly granted in accordance with the city code.
